work was completed as I hoped. Vicente communicated very clearly and was also very efficient. Thanks
nte.

More people, like Jackie, appreciate how efficient an hourlie can be. It gets the work done to
the satisfaction of the client and allows the freelancer to easily do more of the same.

him again.

Vicente G.

I am happy to work with clients like Peter who know what they want as shown by the clear
instructions provided in the job description. Peter was very helpful and patient when I ran into
some difficulties working on his project.

Bobby is a considerate employer. He easily understood the limitations to my skills and
awarded me different assignments. I will get back to him with the proper tools for those
difficult scrapes.
